Cairo, Egypt · Hybrid 12-week internship Posted 2 hours ago

98% match with your profile

Saved Manage application

EGP 12,000–18,000 / month Students & fresh graduates Apply by November 03, 2026

Overview Company My notes

Build technology that matters.

Join Microsoft's engineering team to build reliable, inclusive products used by millions. Work alongside experienced engineers on real projects, develop your craft, and make an impact in a 12-week paid internship.

What you'll do

- Design, build and test features using React, TypeScript and Azure.
- Collaborate with product and design teams to solve real user problems.
- Participate in code reviews and learn modern engineering practices.

What you'll bring

- Enrolled in Computer Science, Engineering or a related degree.
- Strong programming fundamentals and a curiosity for learning.

React TypeScript Azure Problem solving

Paid internship · Dedicated mentor · Learning budget · Flexible hybrid work
